

Professional Summary

Data Science student focused on practical learning through hands-on projects in machine learning, Python, and analytics. Curious and eager to explore new tools and technologies that strengthen problem-solving ability and help create meaningful data-driven solutions.

Education

University of Petroleum and Energy Studies (UPES)	Aug 2023 – Present
Bachelor of Computer Science	CGPA: 8.0
Step by Step Senior Sec. School	Apr 2022 – Mar 2023
12th Standard	
Bal Bharti Senior Sec. School	Apr 2020 – Mar 2021
10th Standard	

Experience

AKECHI WEBCRAFT PVT. LTD. — Business Analyst Intern	Jun 2024 – Jul 2025
- Conducted market research and competitor analysis to support business decisions - Analyzed internal datasets to create weekly performance and KPI reports - Assisted in preparing client proposals and presentations	

Projects

AI-Driven Smart Resume Screening System	Nov 2025 – Dec 2025
- Description: AI-based system to extract skills and match resumes with job descriptions - Tech Stack: Python, NLP, Machine Learning, Flask/Node.js, React, MySQL/MongoDB - Contribution: Built skill extraction and resume ranking modules - Skills Learned: NLP, Machine Learning integration, full-stack development	
Alzheimer Disease Prediction Model	Jan 2024 – Mar 2024
- Description: Machine learning model to predict Alzheimer’s disease using medical datasets - Tech Stack: Python, Scikit-learn, Pandas, NumPy - Contribution: Applied classification models and data preprocessing techniques - Skills Learned: Model building, feature engineering, data preprocessing	
Climate Resilience on Himalayan Tourism Dashboard	Sep 2025 – Oct 2025
- Description: Power BI dashboard to analyze climate impact on tourism in Himalayan regions - Tech Stack: Power BI, Excel, Data Visualization, Python - Contribution: Designed dashboard and analyzed environmental datasets - Skills Learned: Dashboard creation, data visualization, analytical thinking	

Technical Skills

- Programming: Python, Java, C
- Data Science: Machine Learning (Basic), NLP
- Databases: SQL, MySQL
- Tools: React, Power BI

Certificates

Data Science and Analytics Certifications (2024)	Fundamentals of Data Science (2023)	Google Data Analytics Certificate (2025)
